EDUCATION

Madan Mohan Malviya University of Technology, Gorakhpur

2023 – 2027

B.Tech - Information Technology - CGPA: 7.77

Gorakhpur, Uttar Pradesh

EXPERIENCE

1Stop.ai

May 2026 – July 2026

Full Stack Developer Intern

Remote

- Engaged in industry-level training and practical implementation of software development concepts.
- Developed and deployed a project utilizing modern web technologies and best coding practices.
- Collaborated with mentors to debug logic issues and optimize application performance.

Google Summer of Code (GSoC)

May 2025 – Aug 2025

Open Source Developer

Remote

- Developed and added new features to a major open-source project.
- Successfully merged 15+ pull requests and collaborated with mentors in weekly meetings.
- Enhanced code quality by writing unit tests and technical documentation.

Projects

FreeCart – Grocery Delivery Website | [Live Link](#) | *React, Node.js, MongoDB, Razorpay, Chatbot*

- Developed a full-featured e-commerce platform with a dynamic product catalog, category filtering, and a seamless shopping cart experience.
- Integrated **Razorpay API** for secure payment processing, handling transaction callbacks, and ensuring a smooth checkout flow.
- Implemented an **AI Chatbot** to provide real-time customer assistance, handling common queries regarding order tracking and product availability.
- Designed a responsive UI using CSS3/Material-UI, ensuring high performance and a mobile-first user experience.

DSA Sorting Visualizer | [Live Link](#) | *React, JavaScript, Algorithms, Data Structures*

- Built a high-performance web application to visualize various sorting algorithms (Bubble, Selection, Insertion, Merge, Quick) in real-time.
- Engineered custom animations using **React hooks and CSS transitions** to highlight data comparisons and swaps, making complex logic intuitive.
- Optimized algorithm performance to handle large datasets smoothly, providing a 1:1 visual representation of time complexity ($O(n \log n)$ vs $O(n^2)$).
- Added user controls for array size and animation speed, allowing for a customizable and educational debugging experience.

TECHNICAL SKILLS

- **Languages:** C, C++ (600+ DSA problems), Python, JavaScript, SQL, VBScript
- **Web Dev:** MERN Stack, HTML5, CSS3, Bootstrap, Tailwind
- **Tools:** Git, GitHub, VS Code, Postman, Canva, Brity RPA, IntelliJ
- **Databases:** MongoDB, MySQL, SQLite
- **Core Subjects:** Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering
- **Other:** REST APIs, Competitive Programming, Data Structures & Algorithms

EXTRACURRICULAR

- NSS Volunteer (2019–2022): Participated in blood donation camps, cleanliness drives, and awareness rallies.
- Campus Coding Club Member: Conducted C++/DSA sessions for juniors.
- Hackathons: Participated in Smart India Hackathon (2024) and CodeUtsav (2025).
- Blogging: Write technical blogs on GitHub and Dev.to about web dev and open source.
