EXPERIENCE

Spectent

Jun 2026 – Present

Associate Mobile Developer

Remote

- Develop and maintain **3 production mobile applications (FSCM, Spectent, DMS)** using **React Native** for iOS/Android to ensure premium, high-performance cross-platform scalability.
- Build **pixel-perfect UI components** from Figma and integrated **REST APIs** via Axios, TanStack Query, and Zod validator libraries to streamline client-side data state flows.
- Manage automated **push notifications, OTA updates**, resolve bugs, and execute native workflows for end-to-end continuous **Play Store and App Store deployments**.

Spectent

Jan 2026 – May 2026

React Native Developer Intern

Remote

- Contributed to modular architecture components for cross-platform mobile application engineering using React Native.
- Owned UI feature delivery frameworks, backend REST API integrations, debugging, and cross-device manual testing matrix.

ATIR PoliTech

Dec 2025 – May 2026

React Native Developer (Part-time)

Hybrid

- Converted complex **Figma blueprints into fluid, responsive mobile layouts** utilizing optimized native styling abstractions.
- Interfaced REST endpoints to manage active state transitions, loading graphics, and robust error management flows.
- Collaborated with design and backend teams to improve interface render speeds and user interaction workflows.

Nexeed

Sep 2025 – Dec 2025

React Native Developer Intern

Remote

- Developed full mobile frontend client architecture for the **Nexeed platform**, handling feeds, user profiles, and layout states.
- Integrated complex asynchronous layers including **REST APIs, real-time chat, push notifications (FCM, OneSignal), and OAuth**.
- Optimized rendering speeds via offline-first caching and deployed builds built with **TypeScript, Expo, and Supabase**.

PROJECTS

PeerPrep - Real-time Interview Prep Platform (Link)

Jul 2025

- Engineered a collaborative canvas with automated peer matching, multi-party code compilers, and live messaging streams.
- Architected secure identity provisioning via Firebase authentication coupled with real-time database sync layers using Expo.

Expense Tracker - React Native Mobile App (Link)

May 2025

- Built an asynchronous personal tracker handling transactional mutations across insertions, updates, and data removals.
- Interfaced visual states with Firebase Realtime Database systems to secure prompt cross-client sync via Context API.

EDUCATION

B.Tech, Electronics and Communication Engineering

2022 – 2026

Madan Mohan Malaviya University of Technology, Gorakhpur

CGPA: 8.32/10

SKILLS

Languages: C, C++, JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React, React Native, Next.js, Tailwind CSS, Context API

Mobile & APIs: Expo, Android SDK, iOS Deployment, Push Notifications, OTA Updates, REST APIs, Axios, Firebase, Supabase, TanStack Query, Zod

Tools & Core Concepts: Git, GitHub, Postman, Vercel, Figma, Data Structures (DSA), OOP, DBMS, SQL

Achievements: Knight @ LeetCode (Rating: 1906), 3-Star @ CodeChef (Rating: 1665), Pupil @ Codeforces
